

Hi! I'm Amie, 30-years old and from Lexington, Kentucky. In 2020 I zig-zagged my career into Graphic Design. I completed a full immersion UI course online through Career Foundry and began freelancing. My career goals are to freelance or work remotely while traveling. Although, I am currently still stationed at home in Lexington. I look forward to chatting with you about my portfolio and how I could benefit your team!

EDUCATION

Career Foundry, UI Design 2020-2021

I completed the online courses within 9 months. The extensive online courses include a full immersion into UI design. I focused on learning Adobe XD as well as extended my knowledge with other Adobe Creative software.

University of Kentucky, College of Design 2009 - 2014

Studio Coursework- 5 years: Environmental psychology, Finish materials, Color theory, Building systems, History of interior design and architecture, Digital media, Lighting design, and more.

Florence University of Arts, Florence, Italy Summer 2013

I chose to travel to Italy to experience its immense amount of historical value. I traveled to Rome, Tuscany, Florence, Venice, Cinque Terre, Capri, and Pompeii. I completed three weeks of coursework in Florence, which provided and abridged understanding of living abroad.

WORK EXPERIENCE

HDH Kitchen & Bath, Interior Designer August 2017 - July 2020
